### **DETAILED ACTION**

1. Claims 1-9 and 1-23 are pending. Applicant has not yet cancelled claim 10. It is noted that the Application does not possess a claim 10. Again, claims 11-23 will have to be renumbered or claim "10" must be cancelled.

#### ***Claim Rejections - 35 USC § 103***

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 1-9 and 11-23 rejected under 35 U.S.C. 103(a) as being unpatentable over Brown et al., US 5,923,552 in view of Hogge, US 5,983,194.

Brown discloses, Abstract, Figs. 1-6 and related text, a method for synchronizing a supplier's production and starting manufacturer's production within time restraints. Brown does also include a variety of quantities, e.g. production delivery time. Brown does not disclose a step of determine a time needed to receive supplies from a supplier.

Hogge discloses, e.g. Figs. 1-3 and related text, coordinating production in a plurality of factories including determining the time needed to receive supplies from a supplier. To have provided such for Brown would have been obvious to one of ordinary skill in the art in view of Hogge.

With regards to claims 9 and 11-23 these features are disclosed by Brown, e.g. starting and ending time recited by Brown, or inherent within the context of the art, e.g. a delivery location, a variety of details of the item to be produced, a delivery time. To have provided such for Brown, as modified by Hogge, would have been obvious to one of ordinary skill in the art.

Applicant's January 4, 2008 REMARKS have been reviewed, but are not convincing with regards to the previous Office Action. In short, Applicant's assertion that the production delivery times communicated to suppliers in supply orders are determined by the manufacturer's production schedule, that supplies are produced according to production delivery times, and that supplies are received by the manufacturer according to production delivery times are not reflective of the claim language. The fact that Brown using "restrictive links" and "relevant time constraints" and may have a different goal from Applicant does not preclude Brown, in view of Hogge, from reading upon Applicant's claim language, as presented. The examiner notes that if Applicant more succinctly claims features that it deems to provide a line of demarcation over the applied references, the Examiner is open to such. However, as is, the rejection noted above is deemed to read upon Applicant's claim language as presented.

***Conclusion***

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
